

BLACK HAVEN

Biography

Clawing their way up from the Ghent underground **Black Haven** is ready to amaze the world of heavy music with their first full length "Harmbringer". Hypertension Records released "Harmbringer" both on CD and LP. Mixed by Hein Devos (Amenra, Hitch), mastered by Alan Douches (Mastodon, Converge,...) and drawing influences from bands such as Tragedy, Integrity and Entombed "Harmbringer" shows Black Haven's most dark, heavy and exploring side to date. With "Harmbringer" Black Haven blazes down new and adventurous paths making this album a grim and crushing mix of all the best in heavy music, past and present. Expect the unexpected!
